Improved fit with gloves

**MACMRO** **MARC33** Arc Flash Coat

For electric arc exposures, perform an electric arc hazard assessment and wear the properly rated flame resistant clothing

Use this **Coat** with suitably arc rated **Hood & Bib-overall**

Meets ASTM F1506, NFPA 70E & CSA Z462, ANSI/ISEA 125 Conformity Level 2

Arc Rating **33 cal/cm<sup>2</sup> (ATPV)**

Fabric System tested in accordance with ASTM F1959

Inner/Outer layer : 65% Lenzing FR, 33% meta aramid, 2%anti static

**Caution**  
Flammable contaminants will reduce the thermal performance of any flame resistant garment. Wash garment to ensure that no greases, oily soils or other flammable contaminants are present when garment is worn. Repairs to the garment must be made with the same thread and fabric.

**Do not reuse this product after an arc exposure**

**Washing Instructions**

**Fabric:** WASH - Wash this garment separately from other types of garments or fabrics. Use warm water & mild detergent. Do not use detergents or additives containing (or creating) chlorine bleach or oxygen bleach (example: Hydrogen Peroxide) or enzymes. Do not use soap or fabric softeners. Do not wring dry.  
DRY - Tumble dry low heat and remove immediately. Do not iron. Garment can be dry cleaned. Do not use disinfectants

**Important Warning**  
This product does not provide insulation from electric shock. This product, when properly selected and worn, is designed to provide protection from burn injuries resulting from an electrical arc flash in accordance with ASTM F1506 & NFPA 70E. It is important to note that this product will provide limited or no protection against sound, pressure, projectiles and respiratory hazards which may result from an arc incident.  
Face protective products which are effective against the arc flash hazard can reduce visibility. NFPA 70E calls for the use of additional lighting if work conditions require.
